FOR IMMEDIATE RELEASE

The New Way to Date

Wichita, KS-- Boring, stuffy dates are now a thing of the past. The latest way to date is called "speed dating" as seen on the Today Show, Oprah! and Sex and the City. Now Speed Dating comes to town for men and women, ages 25-35, Friday, March 20, at 6:30 p.m. at Inferno 235 N. Mosley in Wichita, KS.

At this party, singles have the opportunity to "date" a year's worth of people in just one evening by spending three minutes each with up to 50 other eligible singles.

Cupid.com/QuickDate™ parties are held at a local pub, restaurant or cafe. Partygoers register online and then check in the night of the party. They receive numbered nametags, special scorecards and seat assignments at one of many tables-for-two.

After some refreshments and mingling, party hosts get the dating started by blowing a whistle. After each three-minute date, each person discreetly marks their scorecards with a "YES" or "NO", the person(s) they'd like to see again. Each whistle blow signals a move to the next date. Men move up the row of tables until the final date is complete.

After the party is over, the scorecards are "tabulated" and each person receives an email with a list of the people who are interested in hearing from them again.
